Plant this Fall!

IT'S NATURE'S PLANTING TIME

Fall Planting Gives Plants A Start

Fall planted trees make some new root growth before winter sets in and the earth becomes firmly packed about the roots during the winter months. As a result of this, they make an early, vigorous start the following spring, which is so essential for best results. The fall planting season begins just as soon as the trees and bushes reach a dormant condition, which is usually about the middle of October, and extends until the ground freezes solid.

OUR REFERENCES

As to our responsibility and reliability, we refer you to the **Merchants and Farmers National Bank, Dansville, N. Y.**; **Groveland State Bank, Groveland, N. Y.**; to any person whose letter appears in this catalog, or to your State Experiment Station or College.

SEND CASH WITH ORDER

It is our cash with order—direct from nursery to planter—method of doing business that enables us to sell trees of the highest quality at such extremely low prices. Remittances should be made by post office or express money order, bank draft or registered letter. No C. O. D.'s.

E. Mauch Chunk, Pa.

Dear Sirs:

Apple tree arrived in good condition, planted, making leaves now. Thank you.

Yours truly,
John Riegel

SATISFACTION GUARANTEED

We guarantee every tree or bush to be up to grade specified or better. We also guarantee arrival to customer in first class condition. If through delay or mishandling in transit, trees or bushes are not in first class condition on arrival, notify us immediately, and we will make prompt, satisfactory adjustment.

USE ORDER SHEET

Please make your order out on the combination order blank envelope enclosed. No postage required. To avoid mistakes and delay write letters on a separate sheet of paper.

ORDER EARLY

As soon as this catalog reaches you, send in your complete order with definite shipping instructions. Your order will be shipped as soon as possible after **October 15th** when nursery stock is fully matured.

THIS CATALOG CANCELS ALL PREVIOUS PRICE LISTS

1. Kelly's up-to-date Storage and Packing House showing Evergreens in foreground.
2. Part of experienced Nursery Crew in block of 2 yr. Apple Trees on Farm No 1.

EMPEROR FRANCIS

SOUR VARIETIES

MONTMORENCY

"BEST PIE CHERRY". Fruit is good sized, fine flavored and bright, clear red. The canning factories are always calling for them and buy them by the hundreds of tons. The best of all sour varieties; is a good shipper, very attractive and always brings good prices. The trees are cleanest and best growers and are less subject to disease, less affected by wet weather, and are the best bearers of all sour varieties. Montmorency can always be depended upon for a full crop, no matter how unfavorable the season may be. Fruit ripens ten days after Early Richmond.

EARLY RICHMOND. Exceedingly hardy and productive. Ripens through June.
ENGLISH MORELLO. Large blackish red Cherry, ripening in July. Hardy and attractive.

PRICES ON SOUR CHERRY TREES

Kelly's Upland Grown CHERRIES

SWEET VARIETIES

EMPEROR FRANCIS

The Queen of All Sweet Cherries—Recognized as one of the newer leading Sweet Cherries for home and commercial orchards. This high quality Cherry resembles Napoleon in size and color except that it becomes a little darker. Ripens around July 4th. Sold at same prices as regular varieties. **1 Year Trees Only.**

BLACK TARTARIAN. Very large, bright purplish black, juicy, very rich. Remarkably vigorous, erect grower, dependable bearer, regular producer. Ripens June 30th to July 4th.

NAPOLEON (Royal Ann). Choice Sweet Yellow Cherry. Good for market and canning. Large size, beautiful Cherry, pale yellow with bright red cheek; sweet, juicy and firm. The leading white Sweet Cherry. Ripens July 7th to 10th.

SCHMIDT'S BIGGAREAU. Large size fruit, deep mahogany color. Flesh dark, very juicy, tender; fine rich flavor. An excellent shipper. Fruit grows in clusters. Ripens July 10th.

WINDSOR. Fruit very large, sweet, juicy, and firm; flesh pinkish and sometimes streaked. Good quality; excellent bearer. Tree upright, vigorous, rapid grower. Popular for its large size and dark color; almost black. One of the leading commercial sorts. Ripens July 20th to 26th.

PRICES ON SWEET CHERRY TREES	1-9	10-49	50 Or More
	Each	Each	Each
2 Yr. 5-6 Ft. 11/16" & Up diam.	\$2.50	\$2.20	
2 Yr. 4-5 Ft. 9/16" diam.	2.20	1.90	
1 Yr. 4-6 Ft., Branched	2.20	1.90	1.40

COMMERCIAL GROWERS—We can supply quantity lots of 1 Yr., 3-4 ft. branched trees. This is the size we recommend for planting for best results. 2 Yr. Cherry Trees are not available in large quantities. If you are interested in Cherry Trees on Mazzard roots please write for special quotations.

BARTLETT
PEARS**

Kelly's Select PEAR TREES

PRICES ON PEAR TREES

	1-9 Each	10-49 Each	50 or More
2 Yr. 5-6 Ft. 11/16" diam.	\$2.00	\$1.70	Write For Prices
2 Yr. 4-5 Ft. 9/16" diam.	1.75	1.50	
1 Yr. 4-5 Ft. Bronched	1.75	1.50	1.10

ANJOU. Is a vigorous grower, hardy and prolific. The Pears are of large size, green in color, but often yellowing when thoroughly ripe. Very juicy, luscious, and of the best quality. For late fall and very early winter use, we have no better variety. October to January.

★**BARTLETT.** Justly the leading commercial Pear—a leader among canning Pears. Fruit is large, golden yellow in color on the sunny side. Flesh is tender and juicy, with a delicious musky flavor. Tree is a vigorous, erect grower and bears abundantly. Ripens in September.

★**BEURRE BOS.** Very popular variety. Very large, gourd-shaped Pear, brownish yellow in color. Hangs to tree well on account of its long stem, which allows it to sway in heavy winds. White flesh, rich and delicious. Tree very productive. Will keep until Christmas.

★**CLAPP'S FAVORITE.** Large, fine, pale lemon-yellow, with brown dots; fine texture, melting, buttery, juicy, with rich, sweet, delicate, vinous flavor. Tree hardy and very productive. Thrives where other varieties fail.

TYSON The Home Orchardist's First Choice

The quality of this old favorite is far superior to that of commonly grown pears. Your State Experiment Station recommends this variety.

The tree is a thrifty grower and very hardy—fruit is of medium size, juicy with a spicy, scented sweetness that gives the fruit the charm of individuality. Ripens late in August.

**1 yr. 4-5 Ft. Trees Only
\$1.75 each**

DUCHESSE D'ANGOULEME. A most dependable cropper, often fruiting the first season after planting. Fruit large. A dull greenish yellow, spotted russet, flesh white, rich and good quality. October to November.

GORHAM. (New.) Resembles Bartlett in size, color, and shape. The flavor is sweet and vinous with a very marked and pleasing aroma. Tree vigorous and productive. Fruit ripens two weeks after Bartlett.

KIEFFER. Large to very large. Skin yellow with light vermillion cheek. Flesh very juicy, with a marked aroma. Good quality.

★**SECKEL.** A delicious little Pear that is the standard of excellence in its class. One of the richest and highest flavored Pears known. Yellowish brown with red cheek. Very productive. August to October.

SHELDON. Large, round, russet and red Pear. Very rich and delicious. October.

Lawn Seed

BUILD UP YOUR LAWN THIS FALL.

Fall is an ideal time for making lawns, and is preferred by many. Weather conditions are usually more favorable and there will be very little trouble from weeds. Fall planting of lawns may be made any time thru the months of September and October.

KELLY'S SPECIAL MIXTURE" LAWN SEED

This is our finest mixture of grass seed for lawns and it is blended from the very best quality seeds to give you a beautiful green lawn that will last.

Lb 70c, 5 lbs. \$3.35, 10 lbs. \$6.50
50 lbs. \$31.50, 100 lbs. \$60.00.

KELLY'S "GREEN CARPET" LAWN SEED

A quality mixture of lawn grass seed suitable for the average lawn. Only the most desirable varieties are used in this mixture.

Lb. 55c, 5 lbs. \$2.60, 10 lbs. \$5.00,
50 lbs. \$24.00, 100 lbs. \$45.00

KELLY'S "SHADY SPOT" LAWN SEED

This mixture contains those varieties of grass seeds that grow and do the best in shady places. If you have trees in or around your lawn, use one of the above mixtures for the main part of your lawn and this Shady Spot mixture under the trees and shady sides of buildings.

Lb. 70c, 5 lbs. \$3.35, 10 lbs. \$6.50,
50 lbs. \$31.50.

Amount of Seed to Use. For new lawns sow at the rate of about 1 pound to 300 square feet. When re-seeding old lawns sow 1 pound to 600 square feet.

The "ALL PURPOSE" HOE

It's a marvelous, quick-operating, light-weight, practical tool that once you've tried you'll never give up. The goose-necked shank permits close cultivation of small plants. It is amazingly efficient for mulching, cultivating and weeding. Weighs only a pound and a half but the "All Purpose" Hoe is stronger than most other hoes. Women find that they can use the "All Purpose Hoe without fatigue.

The "All Purpose" Hoe will weed and mulch between plants and in corners that no other hoe can reach. It will dig dandelions, plantain and weeds from your lawn without disfiguring it. Blade is the finest, oil-tempered spring steel and has 7 inches of cutting surface. Hardwood handle is 44 inches long finished in natural color. Shank and blade are bronze welded.

Only a limited number of "All Purpose" Hoes are available. If you want one for your gardening next summer, send in your order promptly.

THIS HOE & BOOK ARE IDEAL AS CHRISTMAS GIFTS

FRUITS for the HOME GARDEN

by Dr. U P. Hedrick, Former Director
N. Y. State Agriculture Experiment Station, Geneva, N. Y.

Whether you have only a few fruit trees in your back yard or a well developed orchard, you will find this book full of useful, practical information. Exact soil and climatic requirements for each kind of fruit are specified and every step from planning the garden to the care of the mature fruit is covered.

Dr. Hedrick advises on the choice of land and methods for making any given soil suitable for fruit growing. He gives specific instructions on how many

kinds of fruit and how many varieties to plant, correct distances between rows of trees, vines and small fruits; how to select the best plants, and where to buy them. So explicit are the directions for preparing the land, grafting, pruning, spraying, fertilizing, and controlling orchard pests that even an amateur can follow them easily.

"Fruits for the Home Garden" is illustrated with 16 full pages of half-tones and 31 text figures.

Price \$3.00 Postpaid

NEW! STANLEY PRUNE

A STAR PERFORMER

The best for commercial planting or home use. Bears fruit in three years and ripens 10 days earlier than other varieties, exceptionally productive. Fruit large, deep bluish purple, firm and sweet, of excellent flavor. Introduced by the N. Y. State Experiment Station, and is becoming a valuable commercial variety. Bears annually. Midseason. (Sept. 20 to 25.) Same price as other Prune trees.

FELLEMBERG PRUNE

A valuable Plum for dessert, but most esteemed for market and drying or preserving. Fruit long, oval, purple with a thick bloom; flesh firm, sweet and pleasant, separating freely from the stone; moderate growth. A great favorite. A sure market for all you have to sell at very profitable prices. (Sept. 24th-26th.)

EUROPEAN PLUMS

BRADSHAW. Very large, fine early Plum, dark violet-red, juicy and good. Very productive; valuable for market. Quality is excellent, color attractive. Good canner.

LOMBARD. A real Plum for home orchard, also desirable for Commercial plantings. Ripens about the middle of September. Hardy and therefore adapted to a wide range of climate. Lombard is a prolific bearer and produces fruit 2 to 3 years after planting. The fruit is medium to large in size, round and dark red. Flesh is yellow and very juicy. Ideal for canning or table use.

MONARCH. Very large, bluish purple. Juicy, golden green flesh. Bears early and abundantly. Excellent for market. (September.)

REINE CLAUDE (Bavay's Green Gage.) Large, pale yellow, marked with red; good bearer. (Middle of September.)

SHROPSHIRE DAMSON. Medium size dark purple fruit produced in thick clusters. Excellent canner. Tree a good grower and very productive. (October.)

DIRECT FROM OUR FIELDS TO YOUR HOME—We are growers and therefore can sell you the best stock available. Our nursery stock has the reputation of being the BEST that can be grown, and it is our aim to keep it up to the standard in every way. THE BEST IS ALWAYS THE CHEAPEST. It is not what you pay, but what you get, that makes the bargain. Every purchase will prove to you the value of buying nursery stock from us.

ORIENTAL PLUMS

ABUNDANCE. Fruit large, very early; amber turning to a rich, bright cherry. Flesh light yellow, exceedingly juicy and tender. Freestone. Excellent for canning.

RED JUNE. Ripens before Abundance. Medium to large; deep vermilion-red; flesh light lemon-yellow; fine quality. Vigorous, hardy, productive.

April 24, 1943
Kelly Bros.
Dear Sirs:

Your trees and plants arrived in good order and look very healthy. I am glad to mention your stock to my friends. Thanking you for the delivery.

Yours truly,
L. D. Ritter
Grand View Ave.
R.F.D. 1,
Monsey, N. Y.

BURBANK

Recommended because of its early and prolific bearing habits. A vigorous, hardy grower. You will like the quality of this large, bright red Plum. Flesh is quite firm—an ideal shipper. Ripens usually by the last of August.

Dwarf Apple Trees

FULL-SIZED FRUIT AND LOTS OF IT FROM THESE TREES!

FRUIT ON DWARF TREES LARGER THAN ON STANDARDS.

The fruit produced by dwarf trees is the same color and quality as that produced by standard trees but may average larger in size. For those who enjoy working with plants, there is a source of much pleasure in dwarf fruit culture, watching the fruit take shape and ripen over the season. Be sure to plant more than one variety to insure pollination.

In the Spring the trees are attractive with their branches laden with colorful blossoms and when they fruit in the Fall you will be delighted with the full-sized, tasty and attractive fruit.

BUDED ON NEW MALLING ROOTSTOCK

Our Dwarf Apple Trees are budded on the New Malling dwarf rootstock introduced recently to this country by Dr. H. B. Tukey of the New York State Experiment Station. Now you can have several varieties growing in your yard because of the smaller space required. 15 x 15 ft. is a recommended spacing.

This year we offer trees budded on Malling I Rootstock only—trees at maturity reach a height of 10 to 15 feet.

Fall Planting This Year

Life moves so swiftly nowadays that you cannot afford to lose another year of garden satisfaction by delaying your planting until spring. Garden planting time is here for **fall planting**.

Experts agree that **fall is the ideal time for planting**. Why wait until the rush of spring, when conditions are so much more favorable in autumn?

Plants moved in fall are well settled and thoroughly rooted in the spring. They are ready to start new growth long before conditions are favorable for spring planting.

ADDITIONAL VARIETIES

Necessarily, because of lack of space, we cannot list in this Special Circular all the plants and varieties we grow. Therefore, if you would like our General Catalog for 1945, please send a post card and it will be sent promptly.

SUMMER APPLES

EARLY HARVEST. An old variety still holding popularity because of its large size and early bearing qualities. Fruit is pale yellow and of fine flavor. (August 1st-5th.)

EARLY McINTOSH. For home orchard or commercial use this is the ideal early variety to plant. Resembles its McIntosh parent with its handsome red color and uniform round shape. The tree is a vigorous grower, hardy and productive. It is an annual bearer, and early thinning is recommended. The flesh is white, tender and juicy, with fine flavor. Ideal desert Apple. Ripens in August.

LODI. A new fruit that closely resembles one of its parents, Yellow Transparent, but the fruits are larger and ripen a little later. An annual bearer that is becoming a commercial variety. Tends to bear young. (Aug. 10th-15th.)

Red Delicious

RED ASTRACHAN. Tree hardy and good bearer. Fruit very handsome, large, round, nearly covered with deep crimson, overspread with thick bloom; juicy and good, though rather acid; one of the best of the summer varieties. August.

RED DUCHESS. Red sport of Duchess. Bears at an early age, good size, juicy, subacid. Very hardy. (August 5th-10th.)

SWEET BOUGH. Large pale yellow, sweet tender, and juicy. Tree a compact grower and abundant bearer. One of the best early Sweet Apples. (August 12th-18th.)

YELLOW TRANSPARENT. Tree upright, and a very early and abundant bearer. Fruit of good size; skin clear white turning to a pale yellow; flavor acid and very good. August. Desirable variety for home use.

AUTUMN VARIETIES

FALL PIPPIN. Very large, yellow, tender, juicy and rich. A general favorite as a Fall cooking Apple. Pleasant, aromatic flavor when eaten. Tree is vigorous, hardy, and productive. (September 15th-25th.)

MILTON. A very handsome new Apple of the McIntosh type. Fruit a beautiful pinkish red with tender crisp, white flesh of excellent flavor. Trees hardy and vigorous. Ripens a month ahead of McIntosh.

RED GRAVENSTEIN. A new red sport, much more attractive than its parent. Differs from the old Gravenstein only in the solid dark red color of the fruit. Should be planted in place of Gravenstein.

WEALTHY. Beautiful, brilliant red Apple of fine quality. Exceptionally hardy and an early bearer. Excellent filler. October to January.

Best Winter Apples

Early McIntosh

BALDWIN. Large, bright red. Trees vigorous and productive. A leading commercial sort in New York and New England. November to May.

★CORTLAND

A comparatively new Apple of the McIntosh type that combines the high quality and flavor of the McIntosh, the ability to stand handling of the Baldwin and ability to hang to the tree of the Ben Davis. Should be planted extensively. An excellent variety to plant with McIntosh as a cross pollinator. November to February.

DOUBLE RED DELICIOUS. A very fine colored, solid red strain of Delicious resembling its parent in all characteristics except color.

GALLIA BEAUTY. A new red sport identical with Rome Beauty except that fruit is solid red in color instead of striped.

GOLDEN RUSSET. Attractive yellow russeted Apple. Long keeper. November to April.

GRIMES GOLDEN. Large golden yellow. Good quality. December to April.

JONATHAN. Beautiful red Apple of excellent quality. Productive and an early bearer. November to April.

KENDALL. Dark red McIntosh seedling. Productive, good keeper. Ripens with McIntosh.

KING. Large, attractive red Apple. November to March.

MACOUN. Heavy and regular bearer. Dark red, white fleshed. November.

★McINTOSH RED

A very attractive red Apple of the highest quality. Hardy, bears young and annually. A leading, profitable, commercial sort for New York and New England. Productive. October.

NORTHERN SPY. A leading commercial variety. Fruit is large and very attractive, being of bright red color with a delicious bloom. Flesh is juicy, crisp and excellent for dessert or culinary uses.

ORLEANS. Delicious type, ripening same time as Delicious. Early annual bearer.

RED SPY. A new red sport identical with Northern Spy except that the fruit is a solid bright red. Much handsomer than its parent. An excellent commercial sort.

ROME BEAUTY. Yellow and red striped Apple of excellent quality. Prolific annual bearer. Profitable commercial sort for New York, Ohio, Pennsylvania, and West Virginia. December to May.

★RED DELICIOUS

A large, dark red Apple with crisp fine grained flesh of excellent quality and flavor. Hardy, vigorous and an annual bearer. December to February.

RED ROME. Another new red sport of Rome Beauty and like Gallia Beauty is identical with its parent in all characteristics except fruit is a solid red in color.

STAYMAN'S WINESAP. Yellow striped with red. Excellent quality. Productive and an early bearer. December to March.

★ RHODE ISLAND GREENING

Large yellowish green Apple of fine quality. An abundant yielder and excellent keeper. One of the leading commercial sorts. November to March.

TOLMAN SWEET. Yellow tinged with red. Very sweet. Hardy and productive. November to April.

TWENTY OUNCE (Collomar). Very large, red and yellow striped. October to January. 1 Yr. Trees Only.

YELLOW DELICIOUS. A bright golden, yellow Apple of excellent quality. Splendid keeper.

POLLINATION

Varieties such as McIntosh, R. I. Greening, Red Gravenstein and Northern Spy set little fruit without the assistance of an efficient pollinator. Good varieties to use for pollination are: Cortland, Wealthy, Delicious, and Macoun. It is always best to plant two or more varieties to take care of this problem.

TRUE-TO-NAME

All Kelly Fruit Trees are guaranteed to be true-to-name. Each year the growing trees are inspected by Prof. J. K. Shaw and his associates of the Massachusetts State College, Amherst, Mass. These men are the country's leading authorities on fruit tree identification. We were one of the first nurseries in the country to provide this service for our customers.

Tilton, N. H.

Dansville, N. Y.
Gentlemen:

I wish to acknowledge receipt of nursery stock ordered from you. Everything arrived in good condition and the quality was of a high grade just as stated in your catalog.

I shall be glad to recommend your nursery to any of my friends who may be in the market for stock.

Very truly yours,
C. R. Carter

CRAB APPLES

PRICES SAME AS OTHER APPLES—See Page 4.

DOLGO CRAB. A handsome hardy red Crab Apple. Vigorous and productive. Very juicy, jellies easily, and makes a rich, ruby-red jelly of beautiful color and excellent flavor. Makes exceptionally good cider. Early September.

HYSLOP. Popular because of its large size. Beautiful deep crimson color. Tree is hardy and a reliable cropper, fruiting in September.

SPRING PLANTING

The following plants are best transplanted in the spring. We will gladly book your order now for Rose Bushes, Asparagus, Rhubarb, Strawberry plants, Mulberry trees, Nut trees, Boysenberries, Currants and Gooseberries. If you do not have our complete catalog a post card will bring one to you promptly.

Hale Haven

KELLY'S

HEAVY YIELDING PEACHES

Fall planting of Peaches is now recommended where the winters are mild. In sections where Peaches can be planted in the fall, trees make much better growth the first season than when planted in the spring.

GOLDEN JUBILEE. Large yellow freestone of highest quality. Tender, juicy and sweet. Tree unusually hardy.

ELBERTA. Yellow freestone; midseason. Fruit is large to extra large; golden yellow with brilliant shades of red, over a yellow skin, showing a red blush on the sunnyside. Elberta is America's best canning Peach, and a favorite with commercial canners.

HALE-HAVEN. In season about ten days ahead of Elberta. Large, Yellow freestone, highly blushed, very attractive, round, firm, and of good quality. Tree is vigorous and productive. A promising new variety.

VALIANT. Large, yellow freestone, juicy, very good quality. Productive. Early September.

Please refer to our 1945 spring catalog for complete list of varieties available.

We list here the four varieties which are recommended for both home and commercial orchards.

PRICES OF PEACH TREES	1-9	10-49
	Each	Each
1 Yr. 4-5 Ft. 9/16-11/16" Diam.	\$1.50	\$1.20

For quantities of 50 or more, please write for prices.

Baldwin

For Quick Results Plant Small Fruits THIS FALL

GOLDEN MUSCAT GRAPE

Wonderful new golden yellow Grape. For home use and roadside market it is one of the best. Possesses rich golden color and fine muscat aroma of European muscat. Vine is vigorous, productive; the clusters are very large and compact. Berries are large, juicy, sweet, and tender. (Sept. 27 to Oct. 5).

Select 1 Yr. Plants—
\$1.15 ea. 3 for \$3.25

Golden Muscat

Grapes

Please see our general catalog for complete listing of all varieties.

CONCORD. (The Favorite). The leading commercial Grape. Color blue-black. Bunches and berries large. Hardy, productive, and an excellent shipper. Succeeds over large area. Excellent for grape juice. Sept. 25 to 30.

NIAGARA. (White). The most popular white grape. Bunches and berries extra large. Vigorous, productive and a good keeper. Sept. 25 to 30.
PORTLAND. (White). Holds first place among grapes as an early white variety. Vine is hardy, productive, and healthy. Bunches and berries larger than any other white grape. Sept. 1 to 8.

2001 Valley Drive

Kelly Bros. Nurseries
Dansville, N. Y.
Dear Sirs:
Your shipment of trees arrived in good condition. They were planted today. They are fine, sturdy, healthy looking trees—ones I'm proud to have in my orchard. This fall I hope to place a larger order for fall planting.

Very truly yours,
Harry C. Van Nortwick

Prices All Varieties
Strong. 2 year. No. 1 Vines.
60c each; 3 for \$1.65; 10 for \$4.50;
50 for \$15.50; 100 for \$24.75

CACO. (Red). A new wine red Grape which is proving to be a great favorite. Berries very large and sweet. September 15.
DELAWARE. (Red). Bunches and berries small. Light red, unusually sweet and delicious. One of the best red varieties. Oct. 1 to 5.
FREDONIA. (New). The leading early black Grape. An introduction of the New York State Experimental Station. Plant is a strong, healthy grower; clusters medium in size; berries large and juicy. Sept. 5 to 10.

New! Cultivated BLUEBERRIES

AN EXCELLENT SHRUB TYPE.
— LEAVES TURN RED IN FALL —

Blueberries require an acid soil which contains an abundance of peat moss or other partly decayed vegetable matter. If your soil is deficient in this material, a heavy application of peat, rotted sawdust, or other material should be made and worked into the top six inches of soil.

Plant 3 to 4 feet apart in rows 6 to 8 feet apart. Will produce satisfactorily for fifty years or more. For proper pollination, plant two or more varieties. We recommend the following:

CABOT. (Early). Bush is rather low and spreading, seldom reaching a height exceeding 4 feet. One of the earliest varieties, a good producer, excellent flavor, and a good shipper. Fruit is large, firm and attractive.

RANCOCAS. (Midseason). Popular. Ripens about two weeks after Cabot. The bush is tall, vigorous and productive. The fruit is large, light blue, firm and attractive.

RUBEL. (Late). Tall, well-shaped bush, attractive appearance, excellent producer, good quality, slightly tart berry.

Cabot Hybrid Blueberries

Raspberries

LATHAM

The leading Red Raspberry in all parts of the country. Latham is free from insects and diseases and multiplies rapidly. The berries are large plump, juicy, free from seediness and full of delicious flavor. Very hardy; cold weather seems to have no effect on its bearing ability. Marvelous keeping quality makes Latham a favored shipping and freezing variety. Refer to the planting guide we send with each order for full planting and cultural directions. Fruit usually ripens July 1 to 10.
1 yr. Selected Plants—10 for \$2.25; 25 for \$4.10; 50 for \$7.10; 100 for \$12.25; 500 for \$43.00.

INDIAN SUMMER

10 CHOICE EVERBEARING PLANTS \$2.95
New! Everbearing Red Raspberry—the New Red Raspberry introduced by the New York State Experiment Station. Far superior to the other Everbearing varieties. The summer crop ripens early in July; the autumn crop starts early in September and continues until a severe frost. The plant is hardy and a vigorous grower, bears heavy crops.

The berries are large, round, and dark red. Rich flavor of excellent quality equalled by few other berries.

2 Yr. Selected Plants—10 for \$2.95; 25 for \$6.10; 50 for \$11.95; 100 for \$19.50.

Blackberries

Blackberries thrive best on fertile loam. The rows should be about 6 feet apart, with each plant approximately 2 feet apart in the row.

Large No. 1 Plants—10 for \$1.80; 25 for \$3.30; 100 for \$9.75.

ELDORADO. Without a doubt the most popular variety. Ideal for small garden or commercial planting. Plants are hardy and produce heavy crops. Strong, healthy grower, resistant to disease. The berries are large, elongated, jet black, flesh juicy. Moderately firm and sweet. Ripens over a long period.

ALFRED. A new variety that is becoming prominent. Well liked for its large size, sweetness and ability to produce large crops annually. Ripens a few days ahead of Eldorado.

Latham Raspberries

Tartarian Honeysuckle

KELLY'S Choice SHRUBS

PRICES (Except as Noted): Strong, 2-year, blooming size bushes.
70c each; 3 for \$1.95

ALMOND. (*Prunus glandulosa*). A beautiful, erect growing shrub reaching a height of 4 to 5 feet. Very attractive in May with its dainty double pink blossoms, which cover the branches in a cloud of bloom.

ALTHEA, Double. Blooms freely from midsummer until frost. We offer double-flowering varieties in Purple, Red, White and Pink.

BEAUTY BUSH. Beautiful bell-shaped, pale pink flowers during June in great profusion. 18 to 24 in., 75c each; 3 for \$2.15.

BUTTERFLY BUSH, variety Charming. Beautiful lilac colored flowers from June to frost.

DEUTZIA gracilis. Dwarf growing. White flowers in June.

DEUTZIA Pride of Rochester. Double white flowers tinged with rose in May.

FORSYTHIA (Golden Bell). Branches are literally covered in early spring with golden, bell-shaped flowers. The finest early blooming shrub. 6 ft.

HONEYSUCKLE, Tartarian. In May and June it is covered with charming pink flowers, followed by clusters of red berries. Attains a height of 8 ft.

HYDRANGEA arborescens. (Hills of Snow). A very beautiful and showy shrub. Ball-shaped clusters of pure white flowers from July to Sept.

Butterfly Bush

ORNAMENTAL HEDGES

BEAUTIFY AND
PROTECT YOUR GROUNDS.

CALIFORNIA PRIVET. The most popular Privet for hedges. It is upright and stiff in habit. Foliage oval and dark green. It is almost an evergreen. Not as hardy as the others in the extreme northern sections. Is most attractive when trimmed to a height of 2 to 5 ft., about the height of a fence. 18 to 24 in. \$1.80 per 10; \$14.00 per 100. 2 to 3 ft. \$2.50 per 10; \$18.00 per 100.

AMOR RIVER PRIVET. A hardy vigorous grower, recommended for sections too cold for California Privet. Strong bushes, 18 to 24 in. \$2.50 per 10; \$19.00 per 100.

BARBERRY THUNBERGI—The best all-purpose hedge. A shrub of marked excellence because of its bright green foliage which changes to brilliant colors in the fall, and its bright scarlet berries which are very conspicuous throughout the winter. Their habit is dwarf and regular spreading. Grows well in the shade and is extensively used in landscape work. It is very hardy and has never been known to winter-kill. It bears and shears well and makes a dense hedge. 15 to 18 in., 50c each; \$4.00 per 10; \$35.00 per 100. 18 to 24 in., 60c each; \$5.00 per 10; \$45.00 per 100.

CLIMBING VINES

ALL 2 YR. NO. 1 PLANTS

AMPELOPSIS Veitchi (Boston Ivy). Bright green foliage. Clings tightly to smoothest surface. 75c each.

BITTERSWEET. Glossy foliage, creamy white flowers, large clusters of orange and crimson berries retained all winter. 75c each.

CLEMATIS Jackmani. Very large, single purple blossoms. \$1.25 ea.

CLEMATIS paniculata. Fragrant, pure white blossoms in September. 75c each.

HALL'S JAPAN HONEYSUCKLE. White flowers from July until winter. 60c each.

PURPLE WISTERIA. Pale lilac flowers in abundance in May. Grafted plants are sure to bloom. \$1.25 each.

SILVER LACE VINE. Quick growing, thrifty climbing vine. Covered with white, silvery blossoms from early August until fall. \$1.00 each.

Silver Lace Vine

HYDRANGEA P. G. Immense cone-shaped clusters of pink and white flowers turning to bronze in autumn.

INDIAN CURRANT (Coralberry or Red Snowberry). Rose colored blossoms in June and July, followed by dull red coral colored berries.

FLOWERING QUINCE. Completely covered with dazzling scarlet flowers in May. **RED-LEAVED BARBERRY.** Beautiful, warm, bronzy red foliage from spring until winter. Abundant scarlet berries throughout the winter.

SPIRAEA, Anthony Waterer. Dwarf growing. Deep pink blossoms late in June. **SPIRAEA Thunbergi.** A graceful shrub with bright green, fine feathery foliage which turns orange-scarlet in the fall. Blooms in late April with abundant white flowers that almost cover the branches.

SPIRAEA Van Houttei. (Bridal Wreath). Most popular flowering shrub. Suitable for hedge or specimen planting. White flowers in clusters during May and June.

SNOWBERRY. Waxy milk-white berries which remain all winter.

SNOWBALL. Globular clusters of white flowers in late May.

Dansville, N. Y.
Gentlemen:

Nov. 4, 1943

The cherry trees which you sent me arrived promptly and are apparently fine trees. They were well packed.

Yours very truly,
E. H. Streeter

Fort Couch Road, RD No. 9, Pittsburgh 16, Pa.

If you wish us to prepay transportation charges please add 7% of the amount of your order.

KELLY'S SHADE and FLOWERING TREES

AMERICAN ELM. (60-100 ft.) Tall, vase-shaped. Fine for street planting. Queen of American trees. 6 to 8 ft., \$2.75 each; 8-10 ft. \$3.50 each.

BETCHEL'S FLOWERING CRAB (8-12 ft.) Lawn tree. Medium grower. Double rose-shaped pink blossoms. 2 to 3 ft., \$1.25 each; 3 to 4 ft., \$1.50 each.

CRAB, RED FLOWERING (*Malus floribunda purpurea*). (8-12 ft.) Purplish foliage, bark tinged red; large flowers of deep pink. Very hardy. 2 yr. 4-5 ft., \$1.50 each.

CUT-LEAF WEEPING BIRCH. (50-60 ft.) Tall, slender, weeping tree. Silvery white bark. 6 to 8 ft., \$3.00 each.

CHINESE ELM. (30-40 ft.) For quick growth. A very rapid grower with small, dense foliage. Resembles Norway Maple in shape. Excellent for tall hedge and windbreak. 6 to 8 ft., \$2.25 each; 8 to 10 ft., \$3.00 each.

LOMBARDY POPLAR. (60-70 ft.) Tall, fast growing, spirelike tree. Fine for screens and background. Adapted to wide range of soils. 6 to 8 ft., \$1.25 each.

MOUNTAIN ASH (European). (18-25 ft.) Handsome small tree with clusters of red berries that remain on the tree until early winter. 6 to 8 ft., \$3.00 each; 8-10 ft., \$4.00 each.

SILVER LEAF MAPLE. (60-70 ft.) Rapid growing, large spreading tree. Foliage silvery underneath. 6 to 8 ft., \$2.25 each; 8-10 ft. \$3.00 each.

WEeping WILLOW (Babylon). (25-30 ft.) The branches are a soothing olive-green, slender, graceful, drooping nearly to the ground in great billows. Leaves long, narrow, silky green. Grows rapidly and succeeds everywhere. 6 to 8 ft., \$2.25 each.

SCHWEDLER MAPLE. (60-70 ft.) Very attractive, with well rounded head. Reddish purple foliage in early spring changing to deep bronze in fall. 6 to 8 ft., \$3.75 each; 8 to 10 ft., \$5.00 each.

[7]

Mountain Ash

NORWAY MAPLE

Well known, justly popular shade tree. Its broad and dense head gives very heavy shade. This versatile tree will grow well in adverse city conditions.

One of the better shade trees—we highly recommend it to you. The trees we offer are straight, well-grown, and evenly branched. A bargain at these prices.

6-8 ft.	\$3.00 Each
8-10 ft.	4.00 Each

**KELLY'S LEADERSHIP
SINCE 1880**

When you buy nursery products, you want no "guess work" about the transaction. First and foremost, you are vitally interested in DEPENDABILITY in the products you buy and the company you buy from. A vast experience, good management, a reputation and a progressive spirit—this is the policy that has built the Kelly Brothers Nurseries, Inc. to its present size and importance in the horticultural field.

IMPORTANT—With the shortage of experienced help it will aid us greatly if you will send your orders early. This will help us to arrange our digging schedule. If you wish your order shipped on a special date after Oct. 15th we will do our best to accommodate you.

HANSEN'S IMPROVED BUSH CHERRY

An ornamental shrub producing delicious fruit. Very easy to grow, highly productive and hardy. The fruit is large, black and sweet, wonderful to eat right from the bush. Introduced by Dr. Hansen of the South Dakota Experiment Station. Leaves are silvery green, turning to red in autumn. Attractive white blossoms add to landscape effect. **3-yr. Bearing Size, 85c each; 2 for \$1.50.**

STRAWBERRY PLANTS

The roots of Strawberry Plants produced on runners during the summer do most of their developing from late August to Early October. Because of this fact, we lose a large number of plants that are immature in trying to dig salable plants in the Fall. The immature plants, if left undisturbed, would be well-developed by early Spring. For this reason we recommend the strawberry plants be set out in the spring of the year.

If for some particular reason it is necessary that you set your strawberry plants out this fall, we will accommodate you and accept your order. It will be necessary for you to mulch the plants as an insurance against heaving when there is a lot of freezing and thawing throughout the winter months. You will find strawberry plants listed in our complete catalog for 1945.

If you have misplaced your copy or did not receive one, send a postcard today and we will send you a catalog promptly.

HOW TO PLANT—With every order we will send absolutely free a book which, by word and picture, will show just how to plant a tree or shrub. The instructions are clear and, if followed, your plants should grow and thrive. We send the 16-page Revised Booklet **FREE** with your order acknowledgment.
